

**When policy fails,
people die.**

“Quite often in this field politics comes first and science second. We must take a position based on the science and the data.”

Dr. Arata Kochi, WHO

- **DDT alarmism led to a worldwide ban 40 years ago due to suspicions of adverse impacts on bird eggs and humans.**
- **The WHO *lifted the ban* in 2006, after it was scientifically proven that DDT presented no danger to birds or humans.**
- **Before the DDT ban: 50,000 annual deaths**
- **During the DDT ban: 1 million annual deaths**

**DDT Alarmism killed forty million.
How many will global warming
alarmism kill?**
